WHO WE ARE

The Youth Economic Development Organization (YEDO) is a non-governmental, non-profit organization dedicated to empowering youth as agents of change. Officially registered with the Ministry of Social Affairs and Labor on December 2016, 2, under license No. 41/M/2016, YEDO operates under Law No. (1) of 2001. YEDO is committed to strengthening social cohesion, fostering peace, Food security and Livelihood, Youth and women and community empowerment, and driving sustainable development by equipping young people and community with the skills, resources, and opportunities necessary to shape a better future for their communities and their Communities assets.

MISSION

YEDO's mission is to cultivate peaceful, stable, and cohesive communities through the empowerment of youth. We provide young individuals with the tools and resources needed to lead positive change, resolve conflicts, and champion inclusivity within their communities. By focusing on economic empowerment and leadership, YEDO positions youth at the forefront of community development, peacebuilding, and stabilization efforts.

VISION

Our vision is to create a society where economically empowered youth lead community development initiatives, actively promoting peace, stability, and social cohesion. We strive for a future where young people are not just beneficiaries but are active agents of change, driving resilience and harmony within their communities.

KEY AREAS OF FOCUS

YEDO is a leader in promoting peacebuilding, social cohesion, and the empowerment of IDPs and local communities. Our work emphasizes the social, cultural, economic, and political empowerment of youth, enhancing their role in comprehensive community development. Our key focus areas include:

Peacebuilding

YEDO is dedicated to fostering peace within and between communities. Our programs encourage dialogue, understanding, and cooperation among youth from diverse backgrounds, helping to resolve conflicts and build trust across divided groups.

Stabilization

Recognizing the unique challenges faced by internally displaced persons (IDPs) and host communities, YEDO provides entrepreneurial training, skills development, and support initiatives that create sustainable livelihoods. Our efforts contribute to economic resilience and stability, particularly in communities recovering from conflict.

Social Cohesion

We understand that social cohesion is fundamental to lasting community development. YEDO promotes inclusive activities that unite youth from IDP and host communities, fostering a sense of belonging and mutual support. Our programs aim to bridge social divides and strengthen community ties, creating resilient and harmonious environments

Food Security and Livelihood, and Women and Youth Empowerment:

YEDO is dedicated to enhancing food security and sustainable livelihoods by empowering women and youth. We focus on providing training, resources, and support to enable them to engage in agricultural practices and entrepreneurship. By fostering economic independence, we aim to uplift marginalized groups, ensuring that they have the tools to contribute to their families and communities, thereby promoting resilience and self-sufficiency.

Community Assets Rehabilitation and Construction Leading to More Peace

YEDO advocates for the rehabilitation and construction of community assets, which play a crucial role in fostering peace and stability. By involving youth in the planning and execution of infrastructure projects, we aim to rebuild trust and cooperation among community members. This initiative not only addresses immediate needs but also creates a sense of ownership and pride, ultimately leading to a more peaceful and harmonious community environment.

OBJECTIVES

YEDO aims to empower youth as leaders in the following areas:

◆ **Peacebuilding:** Engage youth in conflict resolution, peace initiatives, and dialogue to foster trust and reconciliation within divided communities.

◆ **Stabilization:** Support youth-driven projects that enhance economic and social stability in conflict-affected areas, ensuring the long-term development of communities.

◆ **Social Cohesion:** Promote inclusivity and unity by strengthening ties between diverse social groups, fostering an environment of mutual respect, cooperation, and shared purpose.
